ishga Treatments

ishga is derived from the Gaelic word for water.

ishga products have been developed in the Outer Hebrides using the highest quality and purest Scottish seaweed combined with water from a natural spring situated on the beautiful Hebridean Isle of Lewis.

Seaweed has been used for centuries for its natural healing and therapeutic properties.

It contains a high content of vitamins, minerals and powerful natural antioxidants that are considered essential for maintaining glowing skin.

More recent scientific research shows the seaweed extract used in ishga preserves the skins natural collagen.

The mineral rich seaweed extract is carefully blended with cucumber extract, macadamia, jojoba, aloe vera and lemon peel so that your ishga treatment will detoxify, nourish, firm and hydrate the skin.

Suitable for all skin types.
